

# Bongzilla, Salvation

Look at what we've done to our world  
Rape and pillage her like criminals  
We must change the wave of destruction  
Or lose the glory of evolution

Salvation grows before your outstretched hands  
We must return them to our holy land  
And it will become Holy again

Reunite the Mother, Daughter, and Sun  
This trinity will make us at One  
Free our minds to see the holy path  
And the Earth she forever last
