Bonnie Bianco, Love Ain't Money

You keep telling me the same boy
Want a big piece of the cake
If you look out of the window
You'll see it's a big mistake
See those eyes and see those faces
They all want the same as you
I can only see their madness
Running wild like you
Gonna wake up deep in the night
You'll be crying all on your own
Gonna realize your doing ain't right
When it's much to late for turning around
CHORUS
Love ain't money no money can't buy you

Love ain't money,no,money can't buy you love Love ain't money,no,money can't buy you love Don't you see that you are moving Further in a dead end street Sometimes you will fall with no one There to put you on your feet You think money is the healing Money makes the world go around It won't substitute the feeling Of knowing good friends around Gonna wake up deep in the night You'll be crying all on your own Gonna realize your doing ain't right When it's much to late for turning around

CHORUS +

Honey,love ain't money,no,money can't buy you love Honey,love ain't money,no,money can't buy you love It's gotta be,it's destiny,you want to reach prosperity It gives you strenght,and sense in life,and everything would Be allright

You want it all, you need it all, you wanna build your nest of could But when you touch the golden calf, you're gonna see it's cold (Repeat Chorus)
