

# Bonnie 'Prince' Billy, So Everyone

i know my way around the world  
it's a circle  
and it starts and ends

and i found my hands on mountain girl  
and my efforts condoned by friends

i sit in my window looking out  
watch for boys lit by a new moon

i have a little magic left in me  
how to make a one like you swoon

oh take it  
oh take me  
oh take it so easy

oh make it  
oh make me  
oh kneel down and please me

oh lady  
oh boy  
show how you want me  
and do it so everyone sees me

we have a new leaf to show the world  
glad we do  
we had to come upon it

seems we put our money down  
on black and even  
and the new leaf, well, we won it

oh take it  
oh take me  
oh take it so easy

oh make it  
oh make me  
oh kneel down and please me

oh lady  
oh boy  
show how you want me  
and do it so everyone sees me

now i want the world to see  
everybody look at me  
i'm a good person and free  
and she loves me

oh take it  
oh take me  
oh take it so easy

oh make it  
oh make me  
oh kneel down and please me

oh lady  
oh boy

show how you want me  
and do it so everyone sees me  
sees that she loves me  
she sees that you love me
