

# Bonnie Tyler, All We Have Is Tonight

There's a chance that we can make it  
There's a chance to make it right  
Words cannot express my love on this endless night  
Just one step from heaven  
One step from paradise  
Memories are made of this  
Don't tell me no lies  
Give me one good reason  
If you don't want my love  
Everybody needs some love  
And I think I got enough

(chorus)

All we have is tonight  
Don't throw away this miracle  
We are stronger than pride  
You gotta let me feel the ground  
You only won - playing the game  
Losers gonna fall  
Try if you want to  
Try if you dare  
Winners take it all

Baby, can't you hear my heartbeat  
I'm looking through the eyes of love  
Heaven just can't wait a while  
One night's not enough  
We can be so good together  
We can make it on our own  
There must be a way my love  
Don't ride this way alone  
Lost between two fires  
The night beats the day  
Hiding for my hungry heart  
Love's here to stay

Chorus
