

# Bonnie Tyler, Call Me

Love will always find a way  
Feelings are the hardest words to say  
Oh, call me - call me  
Babe, I always call your name  
I would never feel this way again  
Oh, call me - call me  
There's love enough - enough for two  
There will never be another you  
How can you mend a broken heart  
Oh you said goodbye without a tear  
There are a million souls - a million fears  
That's no way to say goodbye, oh

Call me - call me  
Tell me what you feel  
My love never dies (my love never dies)  
Call me - call me  
Tell me what you feel  
You light up my life (you light up my life)

I'll be there if you want me  
I'm living with my memories  
Oh, call me - call me  
From the bottom of your heart  
You swore we'd never break apart  
Oh, call me - call me  
Oh, hold on tight - don't let go  
If you love me let me know  
I never had a love like ours

chorus

I'm never gonna give you up  
Why did you break my lonely heart  
My world begins and ends with you  
If there's one thing that I know  
Babe, I'll never let you go  
Babe, I sold my heart to you

chorus 2 1/2 times
