

# Boomkat, Fuel- Bad Day

had a bad day again  
she said i would not understand  
she left a note and said i'm sorry i  
had a bad day again  
she spilled her coffee, broke her shoelace  
smeared the lipstick on her face  
slammed the door and said i'm sorry i  
had a bad day again  
and she swears there's nothing wrong  
i hear her playing the same old song  
she puts me off and puts me on  
and had a bad day again  
she said i would not understand  
left a note and said i'm sorry i  
had a bad day again
