

Boy George, My God

Man gives me the book of god and I turn himself and see
I wouldn't be here my friend if I have no faith
Here in the darkness I be kind of light
How to get it wrong how to get it right
He cross himself and shook my hand
And said: Jesus loves you, don't you know?

My god is bigger then your god
My god is better then yours
Put your bombs away you need a little more faith
Don't you what your heart is for?
You should know what your heart is for!
