

# Boyz II Men, Here I Come

Here I Come

Look at us, just the way God intended us to be  
Look up at the mirror to see you on top of me  
What we're doin' right now has been done before  
Still it feels so new, don't you agree

Never want this to end baby  
But it's hard to keep it all in, baby  
Keep this key inside your box  
Till it's time to open up for me  
Let me set you free

I've been pheenin' for you all night  
And I know that thing gonna be right  
Said it's gonna be right...here I go

Chorus

Oh my goodness here it comes I'm on my way  
Baby all I got will fill you up  
And make it okay  
The expression on my face  
Let you know it's bound to take place  
Pull me close so  
You can feel me as you wrap your legs around me and never let go...oh no

Tell me why, is that a tear I see in your eye  
Baby are you cryin' cause it's over  
Or cause it feels so good inside

I feel you trembling and I know it's not because your cold  
Cause you know you deserve this and much more  
You've been pheenin' for this all night  
And you knew this thing's gonna be right

Chorus

Let me feel the rain on my finger tips  
Let me kiss your back and around your hips  
Don't let go, Mommy keep your grip  
Forever

Chorus

Adlib
