

# Boyz II Men, Right On Time

Honey, come here  
I wanna show you something  
You know it. Listen

Been away thirty days, now I'm home  
And I'm here to stay  
I've been thinking things have been gone  
But you already know cause I told you on the telephone  
I remember your fingers, do you remember my hand  
We'd hold as we could, cause that's all we can  
When we're apart, you got my heart  
But when we're together, you have all of me baby

Uhh, I got you  
Uhh, you're mine  
Uhh, we're at ritual  
Your love is right on time

Stop, stay where you are  
Coming to you  
All those things we talked about baby  
I wanna do to you  
So take off your clothes  
Leave the other door open  
But keep on your shoes  
One leg upon the table  
On your back  
Look at me and smile  
Cause you know what I'm about to do  
Baby

This is so good I know  
I know it feels right  
I wish this thing could last forever  
Oh yes  
What you can stand  
Cause my eyes thought away
