

# Boyzone, Heaven Knows

Tears run dry on a young man's face  
Feel the glow of a warm embrace  
Been on a boat to the  
edge of somewhere  
Searched for you almost everywhere  
No more hills left for me to bear  
Cause now I'm almost there  
But baby loves' growing much stronger  
From the day that you said  
you were gonna be mine  
From the way I was lead into your mind

Everything comes to those who wait  
Like a winter for spring  
And the beauty it brings  
And everyone searches  
For the perfect one  
As Heaven Knows  
As Heaven Knows

If you believe, like you know that I do  
You will see I'm the one for you  
Never forget when I take your hand  
At last, I'm here, can't you understand  
So bring on the night and I'll make it right  
Bring a dull day and I'll make it bright  
Cause now we're almost there

But baby loves' growing much stronger  
From the day that you said you were  
gonna be mine  
From the day I was lead into your mind  
Maybe love's making me stronger  
From the day that you said you were  
gonna be mine  
From the day I was lead into your mind

[CHORUS to fade]
