

Boyzone, Since 13

You get lost and lonely
Do you remember times we had
When we were young and crazy fools
Well we went mad on Sundays
We'd go dancing off our feet
Yeah we were breaking all the rules
I've always been with you since 13

So come on up, and come on in
You can wear my clothes again
Come on up, and come on in
Pretend to we were way back when
I'm still in love with you my friend
Still since then

You could be in a convent
You could be on a New York train
You could be gettin' drunk in Spain, but you're not
I've had your heart with me since 13

[CHORUS]

Okay you might have not said yes, but you did
And I weigh the benefits

[CHORUS]

I'm still in love with you my friend
Still since then
Still since then
A way back when
Still since then, since then, since then

Na na na na
I've always been with you since 13
A way back when
Still since then
