

Boyzone, Stay

(Shoo-do-do oh yeah)

(Oh stay)

Stay

Stay

I wanna show you

Every single dream I got inside of my mind

I wanna love you

Better than you've ever known before

You are my fantasy

You're everything to me

Can't watch you walkin' out my door

So why don't you

Stay - for a minute

Give me one more try

Stay with me I'm falling apart

Baby won't you

Stay - for a minute

Please don't say goodbye

You and me together

Stay in my life

A new beginning

And let nothing come between us ever again

And somehow, I will be singin'

Songs you've never heard before

You are my fantasy

You're everything to me

Can't watch you walkin' out my door

[CHORUS]

Give me a second chance

To build a new romance

That's all I'm askin' for tonight, baby

Cmon' and take my hand

And try to understand

You gotta stay in my life..ooh..

(Oh yeah)

(Ooooooh)

Stay - for a minute

Give me one more try

Stay

Stay with me baby I'm falling apart

Please don't say goodbye

Stay with me tonight

Don't say goodbye

Stay in my life

[CHORUS]

Give me one more try, baby

You and me together

Stay in my life

Why don't you

Stay - for a minute

Give me one more try

Stay with me I'm falling apart
