

# Boyzone, That's How Love Goes

How many times  
Have I told you tonight  
There's no need to worry  
It'll all be alright  
So don't walk away  
At the end of the day  
I'll make you sorry  
If you decide to stay  
Sometimes it's hard to hold on  
That's when your heart needs to be strong  
That's how love goes  
(that's how love goes)  
Don't ask me why  
Only love knows  
What you're feeling inside  
That's how love goes  
(that's how love goes)  
One day it's goodbye  
Then it's just one more try  
Nobody knows how love goes  
(how love goes, how love goes, how love goes)

More than I see  
(more than I see)  
More I believe  
That nothing is certain  
When you're following your dream  
So all I can do  
(all I can do)  
Is keep holding you  
(holding you)  
Maybe together  
We can make them dreams come true  
Sometimes it's hard to hold on  
That's when your heart needs to be strong

[CHORUS]

Sometimes it's easy  
To think you understand  
Just then you see it  
Slipping through your hands

[CHORUS to fade]
