

# Boyzone, This Is Your Song

Live your life to the fall  
With a lifetime of smiles  
Made us know right from wrong  
Always knowing a lie  
You made us to be tough  
But never too rough  
Rise above what you said  
Never easily lead.

And one day we'll all sing along  
'Cause this is your song  
I wrote it for you  
It won't take all day  
just a minute or two

You were a friend  
Walk with you to the end  
And one day we'll all sing along  
'Cause this is your song

So I'll try and go on  
Loving all that we know  
Through the hardest of times  
you put on a show

You made us stand tall  
When all around us would fall  
Even when you were alone  
You believed you could fly

And one day we'll all sing along  
'Cause this is your song  
I wrote it for you  
It won't take all day  
Just a minute or two

You were a friend  
Walk with you to the end  
And one day we'll all sing along  
'Cause this is your song

And one day we'll all sing along  
'Cause this is your song  
We wrote it for you  
It'll take all our lives  
Just to help us get through  
You were a friend  
Walk with you to the end  
And one day we'll all sing along  
'Cause this is your song.
