BR5-49, Shes Talking To Someone

(She's Not Talking To Me) C. Mead, A. Murphy

It's been such a long time since she's talked to me Out here in this phone booth I'm chilled to my knees I dial her number and I just can't believe She's talking to someone She ain't talking to me

She's talking to someone She ain't talking to me And I can't stop crying Right here in the street

That signal I'm getting brings a monotone plea She's talking to someone She ain't talking to me

I fumble for quarters I'm looking for dimes I can't even buy her she's busy each time I slam the receiver and I clench my teeth She's talking to someone She ain't talking to me
