## Bracia, Love

What's that feeling in the air? It seems to be just everywhere Someoneput the spell on me But there's no one I can see Ref.

Love, is got me waiting for the sunrise Love, gets me high and makes me smile Love, all the people feeling alright Love, love, love... Heaven knows what it's all about It makes me wanna, scream and shout Sounds like music in my head Oh, I got the feeling I've never had, come on... Hey man, did you hear what said? You gotta choose between the love and hat! It's a moment that you gotta look at my face My face!
