

# Bracket, Back To Allentown

I wish I could make it back to Allentown  
Maybe I can get someone to show me around

You were right, I was wrong  
I've been this way for far too long  
You hate me, I love you  
Show me a place where I belong

I wish I could make it back to Allentown  
Maybe I can get someone to push me around

You were right, I was wrong  
I've been this way for far too long  
You hate me, I love you  
Show me a place where I belong

You don't matter as much as you think  
Or much at all  
And when you become extinct  
I'll watch you fall

I wish I could make it back to Allentown  
Maybe I can get someone to push you around

You were right, I was wrong  
I've been this way for far too long  
You hate me, I love you  
Show me a place where I belong
