

Bracket, Parade

You hang your clouds up over me
You show your love sarcastically

You're always so happy
Whenever we disagree

Why are you trying to rain on my parade?

You stretch the truth until it breaks
You watch my smile disintegrate

You're always so happy
Whenever we disagree

Why are you trying to rain on my parade?
Why are you trying to rain on my parade?

Everyone's laughing
I never can tell why
Maybe I should laugh along

My head says live for yesterday
My heart says let it drift away

You're always so happy
Whenever we disagree

Why are you trying to rain on my parade?
Why are you trying to rain on my parade?
Why are you trying to rain on my parade?
