

# Bracket, Skanky Love Song

And I don't wanna go (x3)  
And I don't want you to turn and run away

And I don't wanna die (x3)  
And I don't want to have to live this way

The times that you have left me  
Standing on my own  
Without you I've got no one  
I wish that you would just be  
With me when I'm alone  
Lord, please don't say that we are done

And I don't wanna know (x3)  
And I don't want to find out where you have been  
And I don't wanna lie (x3)  
And I don't want you to go back to him

The times that you have left me  
Standing on my own  
Without you I've got no one

I wish that you would just be  
With me when I'm alone  
Lord, please don't say that we are done

Why don't you think about it  
Let's give it a try  
You said you never would quit  
I don't know why  
Yeah-eh-yeah-yeah-yeah. . .

And I don't wanna die (x3)  
And I don't want to have to live this way

The times that you have left me  
Standing on my own  
Without you I've got no one

I wish that you would just be  
With me when I'm alone  
Lord, please don't say that we are done
