

Brad, Lift

Hey kids, get your gear
This is your vacation
Climb aboard this yellow bus
To your destination
Hey lift man, lift me up!
It's an occupation
And I wanna have a good time

At Alpental, the skiings all at night
With alcohol, your dreams are all in white
Like Idaho
The wintertime you felt was yours to live
You felt was yours to live
The one good time you felt was yours to to live

Silver streaks mark our tracks
A million miles on empty
Brown baggin from our packs
Can I get some gin please
Double Diamond is way too rough
It's an outside regulation
'Cause I wanna have a good time

At Alpental, the skiings all at night
With alcohol, your dreams are all in white
Like Idaho
The wintertime you felt was yours to live
You felt was yours to live
The one good time you felt was yours to to live
