

# Brad Paisley, Find Yourself

When you find yourself  
In some far off place  
And it causes you to rethink some things  
You start to sense that slowly  
You're becoming someone else  
And then you find yourself

When you make new friends in a brand new town  
And you start to think about settlin' down  
The things that would have been lost on you  
Are now clear as a bell  
And you find yourself  
Yeah that's when you find yourself

Where you go through life  
So sure of where you're headin'  
And you wind up lost and it's  
The best thing that could have happened  
Cause sometimes when you lose your way it's just as well  
Because you find yourself  
Yeah that's when you find yourself

When you meet the one  
That you've been waitin' for  
And she's everything that you want and more  
You look at her and you finally start to live for some one else  
And then you find yourself  
That's when you find yourself

When we go through life  
So sure of where we're headin'  
And we wind up lost and it's  
The best thing that could have happened  
Cause sometimes when you lose your way it's just as well  
Because you find yourself  
Yeah that's when you find yourself
