

# Brad Paisley, Me Neither

Darlin' I've been standin' here just watchin' you all night  
And I think I've even caught you watchin' me a couple times  
If I don't ask I'll never know  
This may sound dumb, but here we go  
Do you believe in love at first sight

Me neither  
I'm glad that we agree  
Believe me  
That's a big relief  
Well, this place is awful crowded  
And this music is so loud  
Would you like to go and grab a bite to eat  
Me neither

It's nice to finally meet a girl who doesn't move too fast  
I was only checkin', that's the reason that I asked  
Relationships need time to grow  
You and I should take this slow  
And darlin' tell me, would you like to dance

Me neither  
I was just bein' polite  
Thank goodness  
My feet are much too tired  
I'm sure you're tired too  
I can see an empty booth  
Would you like to maybe sit and talk a while  
Me neither  
We'd never get along  
I'm thinkin' there's no chemistry at all  
This has been a waste of time  
And I'm runnin' outta lines  
Don't you think it's time for me to end this song  
Me neither
