Brad, Raise Love

Welcome now where we belong
We hit 'em while we're new
Givin' up my action
I swear that'll come to you
And tell me if it seems that
They'll be given you to find
And what will you define the world
That'll make the life to lose

And raise love
To highlight
The world of dream and ecstacy
Problems and attitude

I'll take from this
And I swear there won't be nothing left to do
To give it up would just be the best
Your egos come to you
And in that darkest hour you scream out
Giving into pain
The reason you'll make it my lady
Well let us come again

Raise love
To highlight
The world of dream and ecstacy
