

Brad Sucks, Look And Feel Years Younger

Broken arm and people always trying to spend my time
Collagen injections injected right into my mind
Everything's okay I'm just trying to act my age
Everything's okay I'm just trying to act my age

Yeah I wanna know
Where the hell the days go
I wanna look and feel years younger baby
I wanna look and feel years younger baby

Crime scene in the mirror and it's clearer nearly every day
Plastic in my body telling me that I should smile and wave
Everything's okay I'm just trying to act my age
Everything's okay I'm just trying to act my age

Yeah I wanna know
Where the hell the days go
I wanna look and feel years younger baby
I wanna look and feel years younger baby
