Brad Sucks, Look And Feel Years Younger

Broken arm and people always trying to spend my time Collagen injections injected right into my mind Everything's okay I'm just trying to act my age Everything's okay I'm just trying to act my age

Yeah I wanna know Where the hell the days go I wanna look and feel years younger baby I wanna look and feel years younger baby

Crime scene in the mirror and it's clearer nearly every day Plastic in my body telling me that I should smile and wave Everything's okay I'm just trying to act my age Everything's okay I'm just trying to act my age

Yeah I wanna know Where the hell the days go I wanna look and feel years younger baby I wanna look and feel years younger baby
