

Bradley Hathaway, Our Love Was Good And Our

Our love was good and our love was right
And I don't regret it
No not a single night

Because I knew you
Now I know love
And I know that I want more of

The thing that poets write about
The thing that singers sing about
The thing that flowers bloom for
The thing that stars shine for
The thing that babies laugh for
The thing that Jesus died for
The thing that winter waits for
The thing that trees reach for
The thing that addicts stop for
The thing that widows die for
The thing the proud are humbled for
The thing the lonely are looking for
The thing that made me come alive
The thing that made me realize
That love is the most beautiful thing
That anyone can have and do

And I know that because I knew you
And for that I say thank you
No I'm not bitter
And I'm not mad
I'm just thankful for the times we had

So this is farewell
This is goodbye
I know you're a girl but you don't have to cry

Because our love was good
And our love was right
And I don't regret it
No not a single night

So goodbye my love
Goodbye my love
Goodbye
