

Brainpool, Ready! Steady! Go!

Hey honey honey watch me walking down down the street
I get get get invitations from the girls that I meet

Since you went away
I've been dancing every night and day
You better watch you step
'Cause honey Ready! Steady! Go!
I'm gonna break your heart in two

Hey baby baby baby who's that boy by your side, by your side?
He's look look looking like he's got something to hide, has he lied?

Since you went away
I've been dancing every night and day
You better watch you step
'Cause honey Ready! Steady! Go!
I'm gonna break your heart in two

Every single day since you lef the house I've been down
But baby now I've changed my mind and you will be the loney one
So Ready! Steady! Go! underground

Since you went away
I've been dancing every night and day
You better watch you step
'Cause honey Ready! Steady! Go!
I'm gonna break your heart in two
