

Brainpool, World Going Wrong

HANNES: Everybody's busy doing their stuff
I'm not gonna work until they call on my bluff
'Cause what's the point in doing things that you hate
When you know salvation is already too late
Information, technology, brand new economy
I'm not gonna give it a chance
I said: Stop What You're Doing and DANCE!

ALL: Everyone shout now - Join in our song
We don't have to worry 'bout a World Going Wrong
Everyone shout now - Join in our song
We don't have to care 'bout a World Going Wrong

HANNES: Move it to the left and turn to the right
Shake your arms and legs in the flickering light
Get down on your knees and work your way up
Spin around and then do it all from the top
