BrainStorm, Colder

Colder (brainstorm)

come, oh, come early i'm afraid of getting colder, colder keep the night burning to shine our love always, always

pictures on the wall her pictures on my wall she's so beautiful, so beautiful

climbing up to fall i'm climbing up to fall i'm still staying cool, i'm staying cool

one day i'll find you just to prove that i'm real out of love and hate, of love and hate and losing ties with common sense, baby, i know i will make a bridge to place where my mind goes

come, oh, come early i'm afraid of getting colder, colder keep the night burning to shine our love always, always

thousands of the walls 8 billions of the walls she's so beautiful, so beautiful

digi-dogs around her digi-dogs around i'm still staying cool, well, i'm staying cool

i'm losing all i have and all i ever will out of love and hate, of love and hate i'm losing daydreams and a good night sleep oh, baby, our passions are hiding deep

come, oh, come early i'm afraid of getting colder, colder keep the night burning to shine our love always, always

come, oh, come early i'm afraid of getting colder, colder keep the night burning to shine our love always, always

always, always
