

# BrainStorm, It Is Easy

Just like the sun  
I tried to touch but it's freezing  
You are my gun  
You know, you can shoot me, it's easy

You wanted a star and I say it is easy

Just like the flame  
But my fingers and hands are freezing  
You're not the same  
I can feel it, you know, it's so easy

You wanted a star and I say it is easy  
To fly to the sun but I warn you it's freezing

Caribbean blue - the eyes of my dancing angel  
Fire is cold for you my lovely stranger

You wanted a star and I say it is easy  
To fly to the sun but I warn you it's freezing

You wanted a star and I say it is easy  
To fly to the sun but I warn you it's freezing
