

BrainStorm, Maybe

My body, My hand
My heaven, My land
My guardian angel is mine

You say

My dreams, My head
My sex, My bed
And it's my Corona with lime

And then I say

Maybe we could divide it in two
Maybe my animals live in Your Zoo
Maybe I'm in love with You

You say

My hate, My frown
My kingdom, My crown
My palace and court is mine

You say

My lights, My show
My years to grow
The time that I spend is fine

But then I say

Maybe we could divide it in two
Maybe my animals live in Your Zoo
Maybe I'm in love with You?

But You say

My coat, My hat
My bones, My fat
My zipper is shut by me

You say

My Skin, My blood
My devil, My God
My freedom is what You see

But still I say

Maybe we could divide it in two
Maybe my animals live in Your Zoo
Maybe I'm in love with You
My beginning, My end
My nuclear bomb to pretend
