

BrainStorm, Tin Drums

Hey, honey, hey
Say what you wanted so long
Let your tin drums play
Let your tin drums play
Burn, honey, burn
Oh it's the oneway highway with no return
Well we have a lot to go
We can save
We can save it all
For the winters day
And we can make
We can make it all
In a different way
Much better way
Leave, honey, leave
Leave all confessions of thieves
While we have a song
While we have a song
Rush, honey, rush
And if you open these doors
We wont be ignored by love
Hear the tin drums play
We can save
We can save it all
For the winters day
And we can make
We can make it all
In a different way
Much better way
Going in autumn
Going in autumn
Going in autumn
We can save
We can save it all
For the winters day
And we can make
We can make it all
In a different way
We can save
We can save it all
And we can make
We can make it all
In a different way
Much better way
Hey, honey, hey
Say what you wanted so long
Let your tin drums play
Let your tin drums play
