Brandi Carlile, Until I Die

Hey there what's that in your sky With all the pretty lights You think I can get that high?

Hey you man, where's your motivation And why the celebration You've gotten nothing done here

You wanna live until you Die alone and will And I can fly alone and will I'm not so far below I live beneath your sky With tainted eyes, I've made my mind To live until I die

Run run run catch me if you can can can Come and hold my hand and I'll be your biggest fan Followers living in your hollow words I have seen your nine to fives Wash away your dreams

You wanna live until you
Die alone and will
And I can fly alone and will
I'm not so far below
I live beneath your sky
With tainted eyes,
I've made my mind
Hey I'm just fine with all my time
To live until I die
