

# Brandon Hines, Falling In (Intro)

We have a problem

Ooooooh

We have an issue

It's three in the morning and I'm lying in our bed

There's only one problem, I'm lying by myself

Wondering where you are why you not here with me

Why everyday you drift further away from me

If you don't wanna be here baby just let me know

Cause the excuses you use are getting really old

So I'm a walk away while I still have my pride

Girl it's time to say just what I feel like

This is more than I bargained for now seem like you don't fuck with me no more

Spending all your nights on the town

And I'm telling you it's not the way it's going down

Now I done spend lonely nights just holding on

Now I'm feeling like it's best for me to move on

This ain't working for me right now

So I gat to live without you

Why don't you know that everything you do to me is so

Why don't you come home at night?

Why can't you keep ya shit tight?

Girl it's time to say just what I feel like

This is more than I bargained for now seem like you don't fuck with me no more

Spending all your nights on the town

And I'm telling you it's not the way it's going down

Now I done spend lonely nights just holding on

Now I'm feeling like it's best for me to move on

This ain't working for me right now

So I gat to live without you
