

Brandtson, Denim Iniquity

I got a notion, wanna start a comotion
Got some bad ideas I wanna put into motion
Gonna get your attention with a live mention (??)
Can't you see that I've only got the best of intentions
It is just like it was after 1775 before they lit up the sky on the 4th of July

Match in the gas tank, boom boom
Match in the gas tank, boom boom

(chorus)

The fire is out, the fire is out
My hands, my hands will burn it down tonight
The fire is out, the fire is out
My hands, my hands will burn it down tonight

(chants)

You keep your distance despite my insistance
That there's nothing as futile as your mere existance tonight
We're up approving something that you ain't ruling no what it is
What it is, you ain't removing the pin
You said you needed just one that you could take to the bank
Well here's my answer, its a match in the gas tank!

(chorus X 2)

Baby we could go and watch it all burn down, down to the ground
Don't you want to go and watch it all burn down, down to the ground

(chorus)
