

Brandy, All In Me

[VERSE 1]

There's so much going on
You can think of me
When your hope is gone
You can think of me
To get through anything
You can think of me
I'm here as long as you need me
When nothing seems to work
You can think of me
Your heart is on a search
Let it come to me
I'll make it all reverse
When you think of me
Baby you can see new life through me

[CHORUS]

Let me be the reason you get through the day
Know that I'll make everything OK
Think of me baby in any way
I'll be all you need
Let me be the one you turn to when there's pain
Baby I will take it all the way
Hide in me, I'll be your secret place
'Cause it's all in me

[VERSE 2]

When it seems no one loves
You can count on me
When pain is all too much
You can count on me
Need someone to trust
You can count on me
I'm here as long as you need me
When you see brighter days
Know that it was me
Tears are wiped away
Don't guess it, it was me
When you realize your pain
Was suffered too by me
Then you know the love in me

[CHORUS]

[BRIDGE (two times)]

Anything you could ever need
Baby I promise you can find in me
Dont matter if it's a hope or dream
I promise I'll make it reality

Breakdown

Everyday, every night

Break of dawn

Air of night

Come to me

I'll make it right

If you let me

It's all in me

[CHORUS out]
