

# Brandy, Full Moon

[Verse 1]

Boy, I saw you soon as you came bouncin' through the door  
You and your mans and them just took over the floor  
Started doing your thang  
And it made me notice you even more  
The way you turned around and looked at me seemed as though  
You must've somehow felt me staring on the low  
Something tells me you're the kind of guy I'd like to get to know

[Chorus]

I ain't even gonna front  
I ain't even gonna lie  
Since you walked up in the club  
I've been giving you the eye  
We can dance if you want  
Get it crackin' if you like  
Must be a full moon  
Feel like one of those nights

[Verse 2]

Why is this the first time that I'm seeing you around  
Could you be visiting or are you new in town  
Yeah, whatever the case  
I'm feeling you right here and right now  
Your smile and all the love you showing lets me know that you  
Like what you see and wanna get to know me too  
This could very well be the start of something special  
Happy that I met you

[Chorus x2]

[Bridge]

I didn't think that I'd come here tonight, meet someone like you  
Start feeling the way I do  
Seems like we've known each other most of our lives  
After one conversation, this might be right

[Chorus out]
