

# Brandy, It's Not Worth It

[INTRO]

Don't tell me you want out of this  
Don't say it's time for us to quit  
Don't say goodbye, this can't be it  
Baby please, 'cause it's not worth it

[VERSE 1]

You came into my life  
And it's so funny  
How you made everything right  
And now you're saying to me  
Something ain't right  
What did I do?  
Did I hurt you?  
Baby can you tell me  
How to dry your eyes  
But let me say  
I never meant to make you cry  
If anything I meant to  
Be right by your side  
How did I go wrong?  
When my love was strong  
And all I ever wanted was you

[B-SECTION]

If I can ease the pain  
Whatever it takes to  
That is what I'll do  
Why do you feel this way  
Baby you don't have to  
'Cause I am here for you

[CHORUS (two times)]

Don't tell me you want out of this  
Don't say it's time for us to quit  
Don't say goodbye, this can't be it  
'Cause it's not worth it

[VERSE 2]

You mean the world to me  
And all I do is try to give you all of me  
I never do anything that wouldn't be pleasing to you  
I never knew that you were hurting  
And I'll take the blame for anything that I've done  
That has caused you pain  
I never meant to hurt you in any way  
So this day, I wanna say  
Baby please forgive me

[B-SECTION]

[CHORUS]

[BRIDGE]

Don't wanna see you this way  
What must I do to make it all brand new  
Let me take the pain away  
Anything for you, 'cause baby I love you

[CHORUS out]
