

Bratz, Just Having Some Fun

Oh yeah
You ready?
Here we go...

Hey hey hey
Nothin' like a little sunshine
To start out a perfect day
Everybody is feelin' alright
Let's hit the road, get on our way

Never better, all together, just how we like
Drivin' out to see the world
Everybody laughin', havin' a good time
I'm talkin' 'bout me and my girls

Just having some fun
Everyone
Hit the road, headin' out, lettin' go
Just having some fun
That's how it's done
Start it up, let it rock, let it roll
We're just having some fun

We're just havin' fun

So many new people to meet now
So many places to go
C'mon and fasten up and turn the key now
Rev it up and get on the road

Never better, all together, just how we like
On a journey doin' our thing
All my girls ready for the time of their life
C'mon let me hear you sing

Just having some fun
Everyone
Hit the road, headin' out, lettin' go
Just having some fun
That's how it's done
Start it up, let it rock, let it roll
Just having some fun
It's good to be young
Time to drive, 'cause we like feelin' free
Just having some fun
In the sun
There's a whole new world here to see
We're just having some fun
Fun

C'mon everybody
Have a good time
Woohooo
As far as we can see
Nothin' but blue sky

Have fun (have fun)
C'mon (c'mon)
Have fun, and sing the driving song

Have fun....have fun
C'mon....come on
Have fun....don't you know we're

Just having some fun
Everyone
Hit the road, headin' out, lettin' go
Just having some fun
That's how it's done
Start it up, let it rock, let it roll
Just having some fun
It's good to be young (that's right)
Time to drive, 'cause we like feelin' free
Just having some fun
In the sun
There's a whole new world here to see
We're just having some fun
