

# Brave Combo, Come Back to Me

I can tell you what you're lookin' for  
But that just makes you mad  
You treat me like a fool, a stupid bore  
You're getting wise to a passing fad

But now you've gone away, you're through with me  
You no longer need a crutch  
And I'm honestly surprised I'm not tickled pink  
I can't believe I miss you this much

(Chorus:)

Baby, baby, baby, Come Back, Oh Come Back  
Baby, baby, baby, Come Back, Oh Come Back  
Baby, baby, baby, Come Back, Oh Come Back  
Baby, baby, baby, Come Back, Come Back to me

You ignore my witty lines and look down your nose  
Everytime I speak  
You try to zap my courage from head to toe  
Make me feel so weak

Well I should celebrate but as a matter of fact  
The things you say are true  
I'm a big pretender, I'm not wise at all  
I'm nothing without you

Repeat Chorus
