

# Brave Combo, What Is This Darkness

What is this darkness?  
That's right behind your couch  
That strangles you on TV  
And puts cotton in your mouth?  
There's a bomber overhead  
And there's a famine down the street  
What is this darkness that we're afraid to meet?  
A network interruption  
A TV bulletin  
Our eyes are glued to the screen  
There's a monster coming in  
In about an hour  
That's when the torture starts  
A sound is in the living room  
And it almost stops your heart  
What is this darkness  
That paralyzes us  
That makes the world a monster  
And takes away our trust.
