

# Brave Combo, You Pull My Tongue Out

You make me love you  
I don't want to  
You make me love you  
When I don't even want you around  
You hold my head back  
And pull my tongue out  
You make me kiss you  
And smile when I'd rather frown

You make me think I'm happy  
But I'm much too smart  
'Cause just about the time I'm into you  
just about the time I'm hearing you  
just about the time I can't leave you  
You leave me with a broken heart

So turn your light off  
don't tempt me  
Turn your light off  
Whenever I'm passing by

You make me love you  
I don't want to  
You make me love you  
And smile when I'd rather cry

You make me think I'm happy  
But I'm much too smart  
'Cause just about the time I'm into you  
just about the time I'm feeling you  
just about the time I can't leave you  
You leave me with a broken heart.

HEY!

So turn your light off  
Don't tempt me  
Turn your light off  
Whenever I'm passing by

You hold my head back  
And pull my tongue out  
You make me kiss you  
And smile when I'd rather cry

You make me think I'm happy  
But I'm much too smart  
'Cause just about the time I'm into you  
just about the time I'm feeling you  
just about the time I can't leave you  
You leave me with a broken heart!

OOOOOOHHHHHHHHHHHHHHHH

yeah!
