

# Bravo All Stars, Children Of The World

This goes out to all the children  
All over the world  
This one's for the children  
Children of the world

Come a little closer now  
So you can see the children's eyes  
There's no use in trying  
When you're dealing with the dying  
So let me have a talk with you  
And hope that you believe it too  
There's so many ways to help  
Laughter you can bring

Come closer now  
See the children's eyes  
You just have to give them  
A helping hand

With a little bit of love  
And a little bit of time  
You can help the children of the world  
Just a little bit of love  
And a little bit of hope  
There're a lot of things to do  
To help the children of the world

The children of the world

R'n'G is about to take control  
The only thing you gotta do is set yourself free  
We got to help each other, that's how it has to be  
2-4 Fam. here to lend a helping hand

Come a little closer now  
See it in their eyes  
We've got to keep on trying  
To stop the children crying

Come closer now  
See the children's eyes  
You just have to give them  
A helping hand

With a little bit of love  
And a little bit of time  
You can help the children of the world  
Just a little bit of love  
And a little bit of hope  
There're a lot of things to do  
To help the children of the world

We just have to understand  
They all need a helping hand  
With a little bit of love  
A little bit of love  
Lot of things to do  
Hope you know it too  
We just want to give them a little hope

With a little bit of love  
And a little bit of time  
You can help the children of the world  
Just a little bit of love

And a little bit of hope  
There're a lot of things to do  
To help the children of the world

With a little bit of love  
And a little bit of time  
You can help the children of the world  
Just a little bit of love  
And a little bit of hope  
There're a lot of things to do  
To help the children of the world

Children  
Help the children of the world
