

Breathe Carolina, Classified

I know (oh,oh) , and it's classified
Love making on the bedroom floor
I, told you that I wanted nothing more
From such a simple day
And all these simple games, (that I play)
And the songs I write
Oh, they started in the bed
From things I might have said
Did you really think I meant them?

[Chorus]

Did you really think I meant
Every word that I said?
When we're lying in your bed
Head to Head and I can't get enough
Girl I think, you're the one that lied
When you talked to all your friends and they
Never were on your side
And There's a time and a place for this
It was a while ago, while I was away
And im not coming home
I'm never coming home
And now, I've got you,
Wrapped around my finger
Secrets of this stranger
I'm keeping you up all night (all night)

[Chorus]

Did you really think I meant
Every word that I said?
When we're lying in your bed
Head to Head and I can't get enough
Girl I think, you're the one that lied
When you talked to all your friends you know they
Never were on your side
And There's a time and a place for this
It was a while ago, while I was away,
And im not coming home

[Soft]

I've got you wrapped around my finger
Secrets to this stranger
Keeping you up all night
Woah oh

[Chorus]

Did you really think I meant
Every word that I said?
When we're lying in your bed
Head to Head and I can't get enough
Girl I think, you're the one that lied
When you talked to all your friends and they
Never were on your side
And There's a time and a place for this
It was a while ago, while I was away
And im not coming home
