

Breathe Carolina, That's Classy

You think I should tell you now it's on the line
So sorry girl, it's all I know
Such a pretty face
It's so sad to say
Are you, are you dreaming
I guess it's safe to say that I've got you now
I guess it's safe to say that I've got you now
I guess it's safe to say that I've got you now-ow-ow-owwww chorus
You know you're nothing that I wanted (just give it a rest,)
So cupid never really made it (you never were)
So keep dreaming, you're never gonna taste me (what I wanted, bitch) why can't you get it
I need you out of my head
Need you out of my head
If this is the beginning, than it's time I start contemplating death
Over my dead body that you'll see me again
And every night I'm shaking
Every night you're waking
And every night I'm shaking
You are like I got you goin I got you goin'
You are like I got you goin I got you goin'chorus
You know you're nothing that I wanted (just give it a rest,)
So cupid never really made it (you never were)
So keep dreaming, you're never gonna taste me (what I wanted, bitch) you know you're nothing tha
So cupid never really made it (and walk away)
So keep dreaming, you're never gonna taste me (don't you wanna wear my diamonds)
