

# Brenda Lee, Love And Learn

Love and learn about the birds and bees and the flowers of the mystery  
And if you really want to give yourself a blue love and learn about the blues  
The rocky road is pretty hard to take  
But you don't know nothing till your heart breaks  
If you want to know how much you've got to lose love and learn about the blues  
Love is a game where your life gets spoken  
But the game gets rough when your heart get broken  
You'll say at home a sittin' all alone waitin' for the doorbell or the telephone  
Then you'll know about what everyone must learn  
If you play around with love your will sure to get burned  
So when you go to pick a guy be careful who you choose  
Or you'll love and learn about the blues  
[ sax ]  
Love is a game where life gets spoken...
