## Brenda Lee, When Our Love Began

Morning's breakin' and here we lie
Too much in love to let sleep close our eyes
We turned a page of life
When we shared our love last night
The dream from far behind us
Just came true to find us
Lying here in each other's arms
High on a feelin' of love bein' born
I've had a dream to love you this way
Since the day

(We were) Cowboys and Indians On broomstick horses Chasing the ice cream man Clutching pennies in our hand When our love began

We ventured into each other's life Not really knowin' if love would survive Till we caught that rainbow We chased in our minds Since the day

(We were) Cowboys and Indians On broomstick horses Chasing the ice cream man Clutching pennies in our hand When our love began
