

Brenda Song, Girl Like Me

Flip Flops,
My Jeans are torn,
But I'm not your ordinary,
16 going on 23 drama queen,
Yes indeed, (yes indeed)
I wear my disguise,
But I'm not the butterfly you see,
I'm keeping it a mystery
And I hope you're ready for a girl like me,
What's wrong with knowing what you're on,
Life's too short when you're living on an after thought
So let's take someone of a new position,
You say that we're more than friends
But I say it depends on if you're ready for a girl like me,
Baby, I hope you're ready for a girl like me
'Cause I wanna run away with you
To a place they'll never find us
A place to be with only you
Yeah, we'll be happy in our sleep
But I hope you're ready,
Ready for a girl like,
Ready for a girl like me,
So there you go, I laid it all out
How I feel
So tell me are you real about us
'Cause it's all about trust,
Not about competition
So don't say you're falling in love
Talk is cheap
Baby, show me what you're made of
And I'll give you everything you need
But only if you're ready for a girl like me
'Cause I wanna run away with you,
To a place they'll never find us,
A place to be with only you,
Yeah, we'll be happy in our sleep,
But I hope that you're ready, ready (ready)
'Cause I wanna run away with you
To a place they'll never find us,
A place to be with only you,
Yeah, we'll be happy in our sleep,
But I hope that you're ready,
Ready for a girl like,
ready for a girl like me
I can be strong, I can be weak
I can be cool and cruel
And give you all the love you need
So just let me be
And I might believe
That you're ready for a girl like me
'Cause I wanna run away with you
To a place they'll never find us
A place to be with only you,
Yeah, we'll be happy in our sleep
But I hope you're ready, ready (ready)
'Cause I wanna run away with you
To a place they'll never find us
A place to be with only you,
Yeah, we'll be happy in our sleep
But I hope that you're ready,
Ready for a girl like,
Ready for a girl like me
