

Brendan Canning, Take Care, Look Up

In the hole that we are filling up
Well you know there's no worry being here
And the thoughts that carry no remorse
They're used for the beneficial

I got it
You got somewhere else to be

And we're transfixed on something no one looks
And you see your future rather lived
Time will follow bad behaviour
And nothing can tamper it

I got it
You got somewhere else to be

Take care, look up, the fire's burning up
Take care, look up, the fire's out
