

Brettell, Show Me

When I'm sitting so close to you
There is only one thing I want to do
But I know what your likely to say
And I'm going about it the wrong way

We can't agree about anything
Even when I try to compromise with him
I know whats he's likely to do
You are aware I care about you

And all you wanted to say was that 'I Like You'
And when you tell me that I dont believe its true
You got to show me show me show me ... how you feel
You got to just show me ... that you like me.

You don't believe a single word I say
If I said my shirt was blue, you'll say it was grey
Its not fair being treated this way
Still think about you night and day

And all you wanted to say was that 'I Like You'
And when you tell me that I dont believe its true
You got to show me show me show me ... how you feel
You got to just prove that ... you like me.

Just this once, Just say yes, Please.

You have a clever way of hurting me
You really scare me, your like daunting me
But you know what I'm likely to say
And I'm sure you will get your own way

And all I wanted to say was 'I Really Like You'
And when I tell you this, you don't believe its true
Ive got to show you show you show you ... how I feel
You've got to just trust me ... that I like you.
